Fraction of total reviews
Over total guests (Yelp)

Ranking based on TripAdvisor search for top rated hotels

Fraction of total reviews over total guest (TripAdvisor)

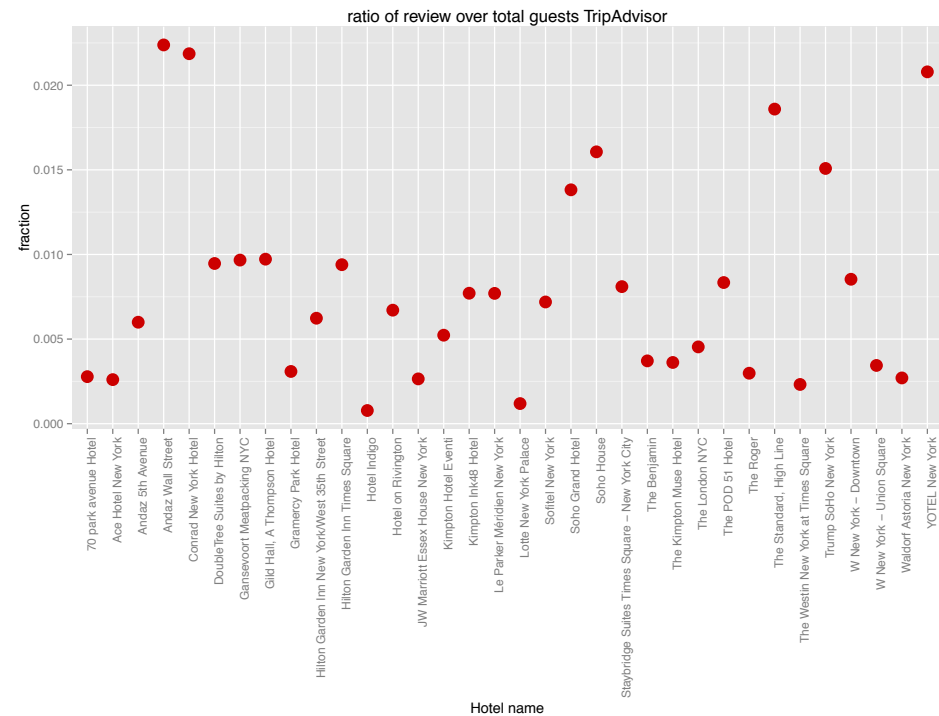

Fraction of total reviews over total guest (Yelp)

This shows reviews and comments for hotels are almost consistent between the websites

Ratio of reviews over guest Yelp

Ratio of reviews over guest TripAdvisor

This can help us identify the hotels with larger fractions and study the attributes of those hotels that made customers to write reviews. Although we need to separate these based on the quality and rates of the reviews.
